

Journal of Convex Analysis

CALL FOR PAPERS

Special Issue dedicated to Professor Alexander Plakhov
on the occasion of his 65th anniversary

Announcing a Special Issue of the Journal of Convex Analysis in honor of 65th anniversary of Alexander Plakhov, celebrating his remarkable contributions to the field of mathematics, this special issue invites submissions covering a spectrum of topics close to Professor Plakhov's heart, including billiards and optimal mass transport, optimal control, and Optimization, convex geometry and calculus of variations, dynamical systems and mathematical modeling, applications of mathematics in mechanics, the Kakeya needle problem, and others.

The Journal of Convex Analysis, founded in 1994, has published already 30 annual volumes each one consisting of 4 issues. The journal is abstracted and indexed in Mathematical Reviews/MathSciNet; Scopus, Science Citation Indexes of the ISI; Zentralblatt MATH/Mathematics, and other scientific databases.

The papers submitted will be considered as potential full-paper publications in this Special Issue subject to peer reviews, and should not have been previously published nor be currently under consideration for publication elsewhere. All submissions will be refereed with the same standards as leading international journals. The main criteria for acceptance are the quality and originality of the contribution.

Prospective authors should contact the editors for the style file of the JCA.

Important Dates:

Submission deadline for papers: May 3, 2025

Tentative date of publication: May, 2026

Guest Editors

Tatiana Tchemisova & Delfim F.M. Torres
email: tatiana@ua.pt, delfim@ua.pt

Information for Authors

Papers submitted to this journal should be written in English and using TEX.

Only unpublished material can be accepted, and authors may not republish their paper in the same or similar form.

With the acceptance of a paper for publication, all rights related to the reproduction pass to Heldermann Verlag.

They should be submitted by email tatiana@ua.pt or,

in exceptional cases, in the form of three hard copies to the Managing Editor:

Prof. Dr. L. Thibault

Laboratoire d'Analyse Convexe

Dept. de Mathématique, Case 051

Université Montpellier II

Place E. Bataillon

34095 Montpellier Cedex 5

France
